PLAY THAT MOVES YOU.®

RESEARCH
helps us understand
the needs of
everyone.

DESIGN
creates spaces
where everyone can
develop together.

INNOVATION
brings adventure,
equity and movement
to outdoor spaces.

1

2

3

SIX PILLARS OF

Play moves us in many ways and is the highest form of expression. It makes us laugh, move, connect, feel joy, learn, grow and be part of something bigger. As we design the building blocks of play, we call upon the Six Pillars of Play That Moves You to guide us and help us bring the best in play to the communities we serve.

DEVELOPMENT
through play teaches
kids about the world
and themselves.

4

CONNECTION
to each other and
our communities
happens through
outdoor play.

5

WELLNESS

is inspired by outdoor
recreation spaces and
promotes community
engagement.

6

PLAY THAT MOVES YOU

Burke[®] PLAY SYSTEMS

SYNERGY IMAGINATION 4ME[®]

Play that helps reach developmental milestones for ages 6-23 months.

SYNERGY IMAGINATION[®]

Play for ages 2-5 that fosters imaginative and creative play.

LEVEL X[®] LAUNCH

Sculptural, artistic and full of adventure for ages 2-5.

1

2

3

5

3

4

Creating the spaces that offer development, socialization and movement requires products backed by years of experience and continuing research. Our play systems span ages, budgets and spaces but share one commonality: bringing the highest level of play to the communities we serve.

NUCLEUS EVOLUTION®

A climbing and sliding marvel that beckons children ages 2-5 or 5-12 to explore.

4

FREESTANDING PLAY

Our variety of play events facilitate active, imaginative and sensory play for ages 2-5 and 5-12.

5

PLAYFUL FURNITURE

Make the most of your playspace by adding functional and playful events for all ages.

6

EARLY CHILDHOOD PLAY

Ages 6-23 Months

Children ages 6-23 months are motivated to explore and Synergy Imagination 4ME® fosters development for this early childhood age group. Designed from research with early childhood education professors, each play event is tied directly to developmental milestones and helps children gain skills through child-directed play. Visit bciburke.com/4ME to learn more.

PRESCHOOL PLAY

Ages 2-5

Play for preschoolers is vital to their development and fosters creativity, social skills and cognitive growth. During these formative years, children engage in various types of play — physical, social, creative and cognitive — that allow them to explore their environment, learn problem-solving skills, develop emotional resilience and practice cooperation. Emphasizing play in early childhood enriches children's experiences and enhances their overall development. Visit bciburke.com/designs to browse our playground structures.

BRIGHT COLORS

A brightly colored playspace will stimulate senses, create a sense of happiness and keep children engaged. When a space looks fun and inviting, kids will stay and play longer. In a community, bright colors can invigorate and attract people to the space and keep them coming back.

Aster

Parrot

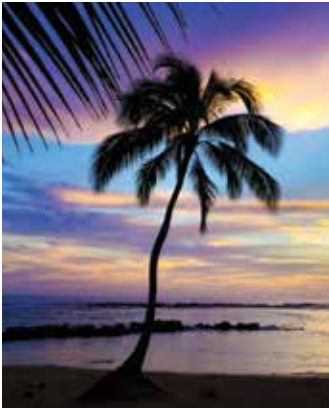

Daisy

Macaw

CALM COLORS

Calm colors create a sense of serenity. This can be beneficial in a playspace for children with varying abilities or sensitivities who need a place to escape to. Combined with the right play components, a calming color theme with subdued and neutral colors gives the user an environment in which they can explore and feel relaxed to play at their own pace.

Seabreeze

Moonlight

Aire 22

Tranquility

MODERN COMBINATIONS

Modern color schemes convey freshness and can be calm, bright or natural. These color schemes feel comfortable, keep up with trends and provide excitement to a space. Coordinating colors with surroundings or architectural pieces nearby can really bring an entire space together.

Chameleon

Psychedelic

Electric 22

Viola

NATURAL COLORS

Natural colors are used primarily to blend into their natural surroundings, like wooded or grassy areas. Consider using blues, greens and variations of those colors for a more modern, calm feeling in your playspace that will incorporate into the environment but not be camouflaged by its surroundings.

SYNERGY IMAGINATION®

Imagination is not only fun but an important part of how children develop a sense of self, see the world and interact with their peers and caregivers. Playing in a space with soft, approachable lines and products that are designed and sized especially for them will increase confidence, encourage exploration and learn and grow through play.

SY-3013 Ages 2-5

IMAGINATIVE PLAY

Imagination is how children develop a sense of self, visualize their place in the world and learn to interact with each other. Fostering imaginative play is important, especially at the critical ages of 2-5.

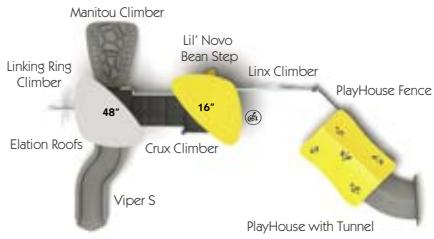

RIGHT SIZED

With smaller hand grips, steps and decks, the sizing and spacing is exactly what children ages 2-5 need to help them develop, learn, engage and grow.

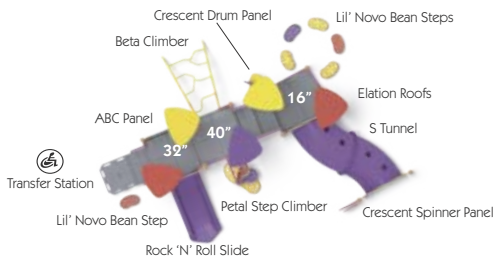

WHIMSICAL DESIGN

Synergy Imagination brings children a whimsical space that is designed with them in mind with surprises around every corner!

**NUCLEUS®
INTENSITY®**

Designed to be “right-sized” and developmentally appropriate for children ages 2-5, these fitness-based playgrounds feature lots of dynamic activities that help keep kids engaged in physical activity through play.

Movement is a healthy, lifelong pursuit and when children have good experiences with exercise, they are more likely to keep positive habits going into adulthood.

NU-2927 Ages 2-5**MOVEMENT**

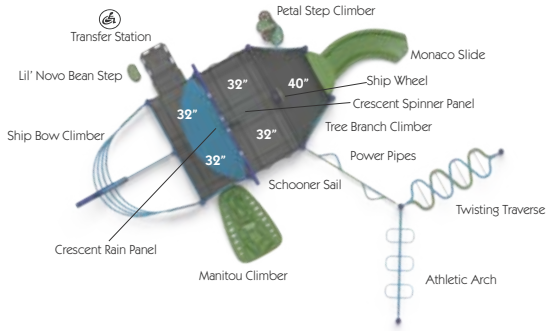

Movement is life and establishing a lifelong love of movement starts at a young age. Creating inviting, exciting and adventurous play spaces brings out a child's natural instinct toward movement and play.

**OUTDOOR PLAY**

More spaces to move, play, create and explore are just a few reasons why outdoor play is so impactful for children. When they play outside, kids can develop games, tap into their imaginations and be surrounded by fresh air and natural light. Getting kids outside is one of the best ways to help them develop resilience, curiosity and a love of the natural world.

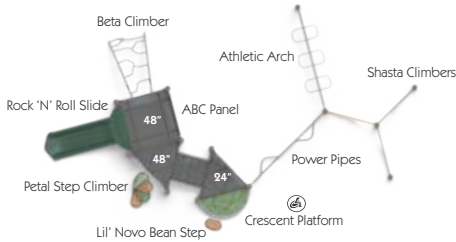

**RIGHT-SIZED**

Hand grips, steps, foot holds and heights are all sized and designed specifically for children in the 2-5 age group. When a space is designed for you, you feel special, comfortable and it's easier to play in a way that works for you.

PLAY FOR EVERYONE

After-school care, summer sessions and school breaks mean more children of different ages at your facility. Age-appropriate playgrounds are a great way to keep kids engaged and burning energy and help make your program the preferred place to be. Add a playspace full of climbing, sliding, swinging, spinning and creative play areas and help grow your community.

SY-2895 Ages 5-12

OUTDOOR PLAY

Being outside is good for the mind and body. Outdoor play offers opportunities to release energy in a healthy way and helps get and keep children moving their bodies. Obesity rates are rising and physical activity is one way we can be part of the solution.

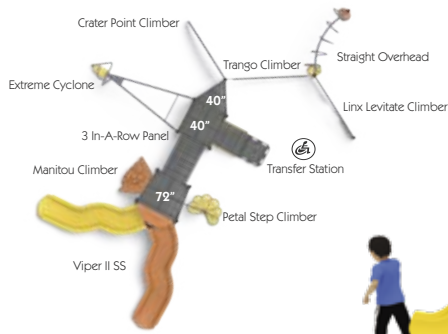

BEING DIFFERENT

Setting yourselves apart from everyone else is a great way to attract more people to help grow your community. Having more healthy activities for kids of all ages to participate in is one way to differentiate yourself from the others. Fun and colorful play areas say you know how important play is to child development and you're here to give kids the best.

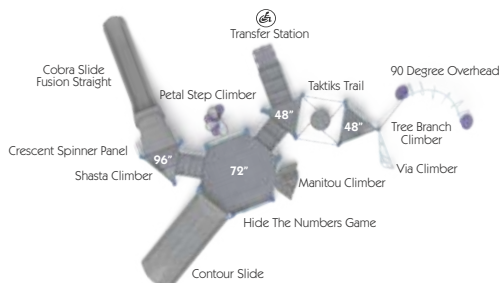

RIGHT DESIGN

The design of both products and playspaces impacts the type of play experience children will have. Research-based design fosters the types of positive outcomes we all seek from play – development, fun and engagement – in a space that's meant for children.

PLAYENSEMBLE®

PlayEnsemble brings a higher level of musical expression to communities. As a universal creative experience, music brings a sense of wonder to the play environment. Musical experiences aren't just play; they accelerate child development intellectually, socially and emotionally as well as enhance overall motor skills, language and literacy. It helps the body and mind work together and is one of the only activities that enhances both sides of the brain. Connect PlayEnsemble components to a Burke Play Structure or build a freestanding music playspace.

SERENITY SPOT

Learn. Socialize. Sit. Relax. Play. Engage. All this and more are the purpose behind the creation of the Serenity Spot. The Serenity Spot is a fort-like environment with games, a rubber kick pad and a variety of activities that can be calming and allow the expression of stimming behaviors, this is a place where everyone is welcome to be themselves.

DISCOVERY STATIONS

Imaginative and creative play are critical to child development. Between the ages of two and five, kids begin to relate their pretend and fantasy play to real-life experiences and use props and language to enhance their play. Packed with play value, the Discovery Stations facilitate this important type of play by offering a place for children to create their own roles and fantasies in a real-life setting complete with realistic details, games and space for everyone to engage.
